

SU Color Chart

This chart gives you the ability to view associated SU and other related products by color including most of the retired colors. It can also serve as an inventory of what products you own. The chart includes areas to include samples for other mediums like Copics, Marvy Brush Markers, etc.

Disclaimer: Information gathered for the RGB & Hex Codes, Prismacolor Pencils, and Copics were gathered from SU's My Digital Studio (MDS) and from a variety of sources for retired colors that MDS did not include. First thank you to those who shared their knowledge and second, not all sources were tested as I do not have all the supplies listed in this document.

Hints for completing the chart:

- Print on Whisper White cardstock to achieve the best match of colors.
- A small punch of cardstock fits in the space provided.
- For stamp pad samples, use any small image (flower, etc.).
- To indicate multiple markers, refills, spots, etc., note "+1, +2" alongside the applicable item.
- There is room for you to a small color swatch for "other" colors such as Copics, Distress Markers, and Prismacolor pencils.
- Even though SU no longer carries Craft inks except white, I left a space in the chart for inventory purposes.

Retired Color Section:

The list has most of the retired SU colors and contains limited Prismacolor pencil information, RGB codes, and some Copic color references.

I hope the chart helps you. Please feel free to share and just send some good stampin' karma my way.

Hugs, P

NEUTRALS
