

# Business Card Holder

©Jessica Darnall

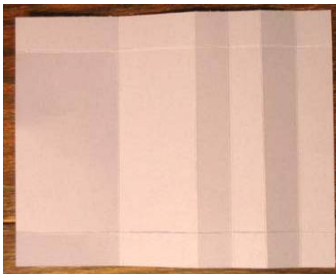

## You will need:

- 1 sheet of cardstock 5 1/2" x 7"
- Adhesive (Sticky strip seems to hold the best.)
- Scissors
- Scoring and cutting blades
- Stamps
- Ink

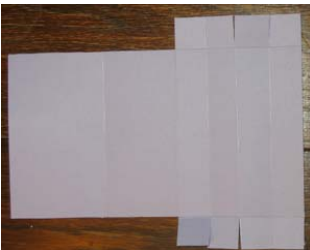

Score 5 1/2" side at 3/4" on both sides.

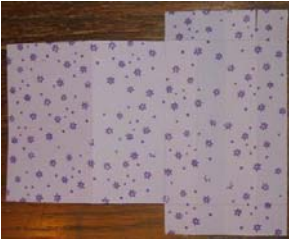

Score 7" side at 3/4", 1 1/2", 2 1/4", 3", and 4 3/4".

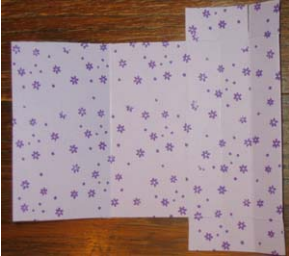

Cut slots for scores on 7" side. Do not cut completely off!

Cut off *completely* the scored section from 3" up.

Stamp both sides.

Fold the  $\frac{3}{4}$ " and  $1\frac{1}{2}$ " scores together and glue.

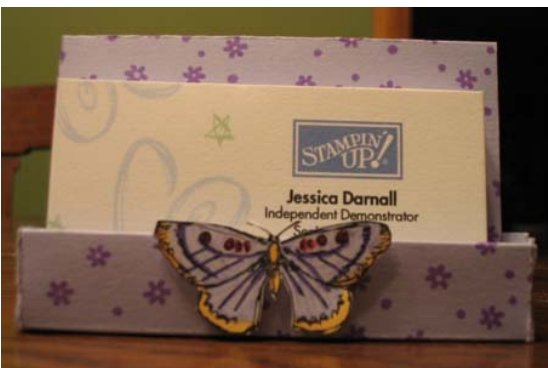

Your  $2\frac{1}{4}$ " piece will be your bottom.

Fold in sides and glue them together.  
*(note: picture has now been rotated)*

Fold down and glue top piece.

Add any finishing touches and insert business cards.
