

Jodi's Card Box
Holds 20 cards and envelopes

First make you box using the instructions below. Option A allows you to make the box using one 12x12 sheet of cardstock. Option B allows you to make the box using 8.5 x 11 cardstock but you will need 2 pieces.

After the box is made go to the lid options. You can either make a box type lid or a lid that is a flap and folds over.

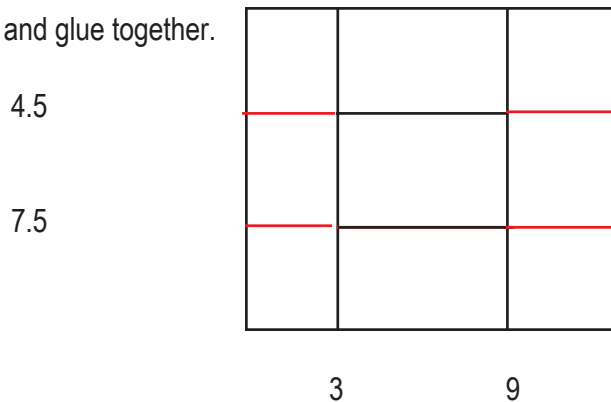

OPTION A - using one piece of 12x12 cardstock

1) Score cardstock at 3 and 9 inches.

2) Rotate paper 90 degrees and score at 4.5 and 7.5 inches.

3) On 3 inches strips on each side of the cardstock cut the creases from the edge of the paper to the vertical score line.

4) Fold and glue together.

Cut at red lines.

OPTION B - uses 2 sheets of 8.5 x 11 cardstock

Piece 1 of cardstock

This will make 2 sides and the bottom of the box.

- 1) On long side of cardstock score at 6 and 9 inches.
- 2) Rotate cardstock 90 degrees.
- 3) Crease at 4.5 and 7.6 inches.
- 4) Crease at 5 inches only on 2 smaller portions. See picture.
- 5) Cut out marked portions and fold.

- 5) Cut out marked portions and fold.

Piece 2 of cardstock

This will make two sides of the box.

- 1) Cut cardstock to 5 x 11.
- 2) With cardstock laying with the long side running left to right crease at 6 and 9 inches.
- 3) Rotate 90 degrees and crease at 4.5 inches.
- 4) Cut out marked portions.
- 5) Fold.

** Please note that the drawings are not to scale and made only to assist you.**

You've made the box - now make the lid!

OPTION A - box type lid

- 1) Cut cardstock to 8 x 11
- 2) Crease cardstock at $2 \frac{7}{16}$ on all four sides.
- 3) Cut lines as shown on diagram.
- 4) Fold and glue.

OPTION B - flap lid

- 1) Cut cardstock to 6 x 6.5 inches.
- 2) Score cardstock at 2.5 and 5.5 inches.
- 3) Crease and adhere 1 inch portion to back of box to create flap.
- 4) Round corners on front portion if desired.
