

4 1/4"

Paper size is 8 1/2 by 11...

Measurement over 4 1/4";

Measurement down is 3 3/4"

Here sre some 'hints':

After you score everything don't crease the fold just yet.

Try to tuck an over and under (like a box) to close the star. Sometimes the card needs "help" to close flat.

After the over/under tuck is done, crease fold lines with a bone folder.

Open and decorate!

To use a Score Pal:

Line up each side to edge of Score Pal.

Score at 3 1/2 " and at 5 1/2".

Rotate to next side and score.

Repeat one last time.

Fold the inside scores to a 'valley' fold.

Fold the outside lines to a 'mountain' fold.

ALL triangle sides measure 8 1/2".

This edge lines up with the left edge of the Score Pal.

To make the designer paper mats, you need 3 each of designer paper:

1" x 4"

2" by 3"

this one will have to be trimmed to the angles of the point.

Score Line

Score Line

This is along the 8 1/2" edge of the paper.
