

GUM HOLDER

Designed by Mary (EmGee458~SCS Boards)

Cut a 2" square of white cardstock.
Stamp images & mat onto another
square of coordinating cardstock.

Cut a coordinating piece of cardstock
into a 2½"x8" rectangle.

Score and fold at 2¼" and 2¾" from
both ends.

Punch a slot at one end of the
cardstock with the Word Window
punch, at least ½" from end.

Using mono-adhesive or red tape,
adhere punched end to package,
taping only in the space above the
punched window once folded.

Adhere stamped image to top
(shortest section), leaving an overlap (roughly 1½") to allow for closure.

Insert gum into slot. Attach Velcro sticky dots to hold package closed. See sample for placement.
