 Looks Like Spring stamp set – SU

Attach large So Saffron piece on short edge so narrow scored part overlap with double sided tape or other choice adhesive.

Round Corners on smallest flap. This is your wallet base.

Adhere the three Chocolate Chip scored pieces, with 1" flap alternating left to right, in each of three inner large sections of wallet base centering in each section with double sided tape or choice of adhesive.

Using the three large piece of the DS paper, make three library pockets with the width to match 3 1/2". I made my own pattern but I am not sure if it will size right if I add it to the tutorial. I will add it at the end in case it does work. I also adhered side flaps to inside of pocket instead of back because both sides of pocket will be seen.

Adhere the three pockets to each of the three 1" flaps inside the wallet, alternating sides and having the open side to the inside of the wallet.

Round corners and stamp floral image along both front and back bottom edges of pocket inserts. Punch a horizontal slit in the center top end of the tag and tie a piece of organdy ribbon in the slot.

Attach Narrow organdy ribbon to the horizontal slot with a simple knot.

Stamp four large daisy images on Very Vanilla cardstock and cut out. Then Punch out four small floral images for flower center. Attach small and large flowers in center with a brad. Three get attached, with glue dots, to inside of pockets and the last goes on buckle to hold wallet closed.

Now we will add a place for journaling. Take the 1" pieces of DS paper and tear along one long edge of each piece and attach to the Mellow Moss cardstock with adhesive. Alternating sides but matching patterned paper with library pocket of same color.

With Journaling stamp or ruler and marker, stamp lines for journaling in center of Mellow Moss cardstock.

Now we will make the belly band for keeping the wallet closed. Fold narrow Chocolate chip cardstock on score lines. Place over closed wallet and secure with adhesive making sure not to have band too tight or it will be hard to get on and off the wallet.

Now you are ready to attach the final piece of the belly band – the buckle. * This was completed at the cut out flower stage and can now be adhered to the belly band.

Now you have a completed wallet ready for your precious photos and memories. Enjoy!
This is quite a nice size wallet and will hold lots and lots of picture.
