Trace fry template onto cardstock (3 will fit on 8 1/2" x 11 if you lay it out carefully)

Cut out with scissors

Score on dotted lines, or just fold depending on how picky you are.

Stamp snowflakes from Merry & Bright stamp set all over cardstock with matching ink

Fry Boxes

Adhere side tabs to form box with sticky tape. I put the small front tab over the back tab so the front of the box would be smooth.

Punch smaller tag out of regular card stock and stamp "Very Merry" from Short and Sweet Stamp set. Emboss snowflake in corner of tag. If you do not have a larger tag punch then cut out a rectangle that is $\frac{1}{4}$ " larger than the tag out of designer paper. Adhere smaller tag with snail to rectangle and trim two corners so it outlines the smaller tag. Draw stitching lines with white gel pen on designer paper tag. Punch with rectangular punch so you can run a ribbon through the tag.

Punch scallop out of designer paper.

Punch $1 \frac{1}{8}$ " circle out of natural white paper.

Stamp snowman on from Merry & Bright Stamp set.

Watercolor snowman hat, scarf and nose. Use two way glue and dazzling diamonds on hat pom pom and snowman body.

Punch coordinating circle with $1 \frac{3}{8}$ " circle punch.

Glue the circles together, I used a dimensional between the scallop circle and the $1 \frac{3}{8}$ " circle and snail to put the snowman on top. I used a dimensional to attach the scallop to the fry box.

Fill a cellophane bag with 7 hersheys kisses, and tie the top of the bag with the tag run through the ribbon. It's easier to put the bag in the box first, drop the kisses in and then tie it all together.
