Score 2 - 8 1/2 x 11" sheets of card stock as shown. Side depth should be the same as bottom flaps of bag, depending on size of bag desired.

For example, Score line A is 2 1/2 " from edge, and score line B is also 2 1/2" from edge.

Secure panels end to end, as shown in the diagram. Stamp while flat.

Cut slits in bottom section to create flaps for bottom of bag. Fold far right 1/2" flap inward, then secure far left side flap to the narrow 1/2" flap.

Shape bag, and fold up bottom flaps and secure to each other.

For a strong bond, Sticky Strip is recommended, and for heavy items, reinforce the bottom with a piece of chipboard, and holes for ribbon handle with eyelets.
