

A2 size card stand

Folded into standing position.

1. Cut on solid lines. Use craft knife for inner lines making sure angles are cut at corners.
2. Score on dotted lines.
3. Add tacky tape or mono adhesive along long straight edge on the back side. **Do not adhere it to the artwork.**
4. Fold on line A towards you.
5. Gently fold down the inner cut shape until it slides into ledge of inner cut. If it all works unfold and lay flat.
6. Align the bottom edge of the stand to the bottom of the artwork so the whole stand is aligned with the width and height of the card. **Note: Make sure the angle does not go past the side of the card and show from the front.**
