

# Making a Treat Pouch

I suggest using a plain piece of paper, 8 1/2 x 8 1/2 (or any size square), to practice your folds and use as a guide.

Stamp half of your paper on one corner and then fold the paper in half corner to corner with the stamped image(s) on the inside of the top flap.

The example on the left isn't to scale, but you get the idea!

Once it's folded in half you can fold in the left corner – fold it in so you have a straight “line” parallel to the bottom edge.

Then you fold the right side in and the top flap down...observe beautiful stamped image(s)! You can also cut a triangle of contrasting cardstock also stamped or use coordinating patterned paper to line the backside of the pouch. Attach a button tied with twine hemp or cord and voila – a pouch for your treats! Enjoy!!!
